

# CLASSONIAN

Create in me a clean heart, O God, and  
renew a right spirit within me.  
Psalms 51:10  
(from our journal reading this week)

Volume 1, Issue 6

## TEACHER APPRECIATION

For teacher appreciation week each class did things for their teachers. The 6-8th grade class made crowns for Mrs. Nagele and Mrs. Peinado that they have to wear all week. We also made big banners with appreciative things written all over them. We are excited to see them when they get all the other things we have made for them, including Mrs. Haggans.

### Important dates in May:

- > 10th: Mothers Day
- > 11th: swimming lessons
- > 11th: Thank an adult day
- > 12th: haystacks
- > 13th: Spaghetti
- > 13th field trip to ape caves
- > 14th: Grilled Cheese

Editor: Rosee Kirkman

## Good-bye Ms. Jocelyn

Our Spanish teacher Ms. Jocelyn is going home to Mexico on the twentieth of May. We are asking people to bring their favorite chocolate chip cookie recipe and a bag of chocolate chips on the fifteenth. We are also going to have a small good-bye party with cake.

She is going back to Mexico to study to be a chemical engineer. She wants to work with plastics. We are going to miss her very much, she is a great teacher and a fun friend.

## Mothers Day

Moms, how would you describe them? Maybe yours is sweet or mean, kind or cruel, whatever she is, Mothers Day is this Sunday! So you better get your mother something sweet! Your mother is the

reason your in this world, so show her how thankful you are to have a life and to have her as a mother. It will make her feel good!

Carys Beebe

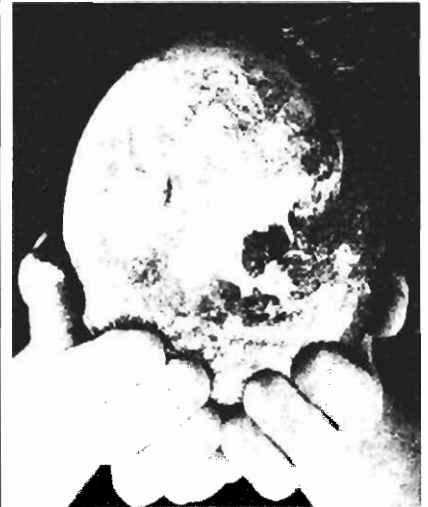

*Mommy, I love you  
For all that you do.  
I'll kiss you and hug you  
'Cause you love me, too.*

*You feed me and need me  
To teach you to play,  
So smile 'cause I love you  
On this Mother's Day.*

## Amazing Facts About Space...

- You can fit 1million earths in the sun.
- Mars has red dust AND ice.
- You can't see the stars from Uranus because of the storm clouds.
- We know more about space than the oceans.
- If you counted one star every second it would take over 3,000 years.
- Odds of being killed by space debris is one in a million.
- Armstrong's first step on the moon was with his left foot.
- Venus rotates clockwise.
- One day on Pluto is equal to one week on earth.
- If you put Saturn in water it would float.
- The light we see is 30,000 years old.
- When two pieces of metal touch in space, they are permanently stuck.

## Art Update

In art for the past two weeks we have been working on silk screening our own t-shirts. Each person first had to draw a design and then cut out what they wanted to have appear on their shirt. Mr. Messenger than applied paint over his homemade silk screen and then squeegeed the paint over the t-shirt. Here are the designs that we chose to make.

**Bethany**—Heart with wings

**Noelani**—Her name with a flower on it

**Carys**—Spiderman (not done yet)

**Savannah**—Awesome heart with flames and her name in block letters

**Ellen**—Hawaiian flower

**Ambrose**—Eagle

**Rosee**—Giraffe neck with her name

**Devon**—Big Foot

**Mitchell**—Batman (who is cooler than spiderman)

## Summer Fun

The first day of summer vacation for us is June 11 and all the kids are excited. I went around the room and asked the other kids what there summer plans are:

**Ambrose**—Play outside, and watch my new sister grow.

**Bethany**—Whatever my mom has planned.

**Carys**—Relay for Life

**Ellen**—Horseback riding

**Noelani**—A lot of horseback riding.

**Devon**—Go to New York, Oshkosh, WI and relax at home.

**Savannah**—Horse pack trip at Big Lake Youth Camp  
**Sydney**—Wakeboarding Camp at Big Lake and Oshkosh, WI.

**Me**—I am going to learn to play the piccolo and go to Oshkosh, WI.

Summer will be a very fun time.

## Swimming—Our Thoughts

The results of the class interview about swimming was a real surprise: only one person said she was looking forward to it. Some were just not as excited, some said they were bored with it, and a few claimed they weren't even going. I hope that they change their minds, if just for the sake of their P.E. grade.

Ambrose Robinson

## Change of Plans

Due to snow on Mt. St. Helens our trip to the Ape Caves on the 13th has been changed. Instead we are now scheduled to visit Crown Point, take a hike to Horse Tail Falls, and enjoy a tour of the fish hatchery at Bonneville Dam. Please make sure to sign your permission slip and return it by 5-12-09.

Congratulations to the Robinson family. A big welcome to Mary Grace Robinson 5-6-09.
